TEAMWORK

★ With the passing of each year, a great number of facts are added to man's increasing store of knowledge. Not over seventy-five years ago a man of superior intelligence could possess a working knowledge of all of science. Now, however, the realm of the known is so vast that it is necessary for men to specialize in order to master one small but deep corner of scientific knowledge.

Thus we have the physician, who diagnoses disease and prescribes medication and treatment. The pharmacist compounds and dispenses. Both the physician and the pharmacist benefit greatly from the researches of the biologist, the chemist, the physiologist, and the physicist, to name but a few. Through the teamwork of the allied sciences, increasingly better medical service for all is assured.

Registered Pharmacist on duty at all times.

Business Executives Now Travel in Flying Offices

BURBANK, CALIF. — Many big business executives are using luxurious private planes now instead of the private railroad cars of other days.

A reasonable attempt has been made to transfer some of the comforts of the private car to its air successor.

Military aircraft which not many months ago were ferrying brass hats and bombs to the far corners of the Pacific are being converted at the Lockheed aircraft service base here into club cars for corporation officials. Bucket seats and bomb bays have given way to collapsible ottomans, bars and wardrobes. Interiors once stripped for action are now parallel in limed oak and furnished with curtains, upholstery and carpeting.

Plushiest of the sky offices converted to date is a Lodestar which boasts a stainless steel galley, swivel passenger chairs, collapsible ottomans, gold-plated ashtrays and glass holders, bar, folding tables, table lamps, cabinets, lavatory and wardrobe. The interior woodwork is all in limed oak and upholstery and carpets are of the finest quality.

Drug Proves Effective In Killing Tree Borer

When applying paradichlorobenzene to kill off tree borers, take a hoe and pull the soil back from the tree, down to the crown of the root system. Scrape off all gum and loose bark. Then pull the soil back up around the tree, to a height of about six to eight inches, and smooth off the top of the mound. Then apply one ounce of paradichlorobenzene for a tree that's over three-years of age.

Governor Says Schools Are Getting More

Governor Tuck has suggested in a statement on state services that individuals and organizations await his recommendations to the General Assembly in January before committing themselves to various proposals now being advocated.

Reviewing the advances in appropriations from state funds for public schools, the governor said that before forming an opinion on one particular program, individuals and organizations "may wish to have the benefit of all information on the inter-related state programs, including education."

"This, of course," he said, "will be possible only after the convening of the General Assembly when all of the legislative commission reports will be available and when the detailed recommendations of the executive are submitted in accordance with the requirements of the constitution."

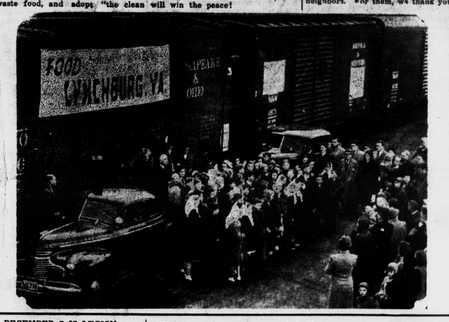
"The real objective of any sound program, whether it be in education or in other fields, is the improvement of the public service and not alone the salaries of the personnel that renders the service. We cannot improve our schools simply by appropriating larger sums. These appropriations must be accompanied by a deep and abiding interest on the part of our public officials, the general public and particularly our school officials and teachers in seeing that we get our money's worth. By all means, we should take care not to make appropriations to any state agency in excess of the value of services rendered by that agency, irrespective of the source from which pressure may come."

The chief executive noted that for the current biennium, ending next June 30, state funds for schools are $11,420,702 greater than for 1944-46, which represents a gain in the two-year period of approximately 27 per cent.

Above: Bobby Mitchell and Lloyd W. Moses, J. J. Chersault and Jesse Godsey help load flour from Appomattox on the Friendship Train in Lynchburg. (this flour given by: T. Reynolds.) (Photo by Dudley, engraving courtesy Lynchburg News.)

Below: Scene at loading of the Friendship Train cars in Lynchburg Tuesday afternoon. Two carloads of food joined the train, to add to the hundreds of cars voluntarily given as a token of friendship from the people of America to the people of Europe.

As a similar project: American people are being asked by their government to conserve food, end waste food, and adopt "the clean plate" as a slogan, so that available food supplies may be shared as far as people. Guns won the war; food will win the peace!



Nice Sum Given For Friendship Train Loading

Appomattox citizens joined with Lynchburg in filling two carloads of "The Friendship Train" with food for war-torn Europe. The train stepped in Lynchburg at 2:30 A. M. yesterday. Two freight cars were all loaded and ready to be hooked on as the volume of food given by the people of the nation swelled to truly amazing proportions.

A cashier's check for $352.17, and 300 pounds of flour, represented the contribution of Appomattox people to this cause.

The gifts were unique in that no formal "drive" was made. Calvin H. Robinson, publisher of the Times-Virginian, announced in the paper that he would accept contributions and see that they reached the proper Friendship Train officials. One spot announcement to this effect was made over radio station WWOD. And that was all! The response was truly amazing. Individuals dropped by the newspaper office to give, $, $2, $5 or more. Letters came in the mail, from Pamplin, Concord and other nearby county points. Hebron Baptist Church sent in $95.00; Pamplin $33.00, Hixburg over $30.00 . . and so it went. When the time to count up came, the cause had $352.17. The entire sum went into food, as there were no expenses.

About $25.00 had to be sent back, because of reaching Mr. Robinson too late. However, the fine showing of Appomattox was well received in Lynchburg as a mark of the spirit of cooperation and human kindness residing in the hearts of Appomattox people. And in a few weeks the hungry in Europe will be eating the food from America's rank and file, the friendly people who sent the Friendship Train food to their guest neighbors. For them, we thank you.

She is survived by two sons: Richard Henry Perkins, of Richmond, and William Walker Perkins, of Route 1, Appomattox; also by four brothers and two sisters.

Active pallbearers were: Tommie Woodson, Willie Woodson, Richard Perkins, Johnnie Carnefix, T. C. Harvey and Robert Coleman.

Six Simple Rules Listed For Saving Fuel Dollars

MINNEAPOLIS. — American householders can save millions of dollars and help to avert any possible fuel emergency by adopting a simple, six-point program of fuel conservation this winter, according to Thomas McDonald, vice president of Minneapolis-Honeywell Regulator company.

"Six time-tested rules can be the means of saving up to 50 per cent of the fuel budget in many homes," McDonald said. "With mounting costs, this is important from an economic standpoint. It also will be important from the point of comfort, if any emergency should arise."

McDonald urged adoption of these six points:

1. Prevent overheating and maintain uniform temperature. Keep daytime temperature as low as possible consistent with comfort—about 70—and lower the thermostat setting at night. If you have a clock thermostat, it can be set to turn the heat down and up automatically.

2. Turn off heat in unoccupied rooms, including bedrooms during the day. Keep shades drawn and keep windows closed at night.

3. Do not waste hot water.

4. Install storm windows and repair or close openings around doors and windows to effect complete insulation.

5. Replace missing boiler or furnace insulation. Insulate the hot water heater.

6. If in doubt, call your heating dealer for a check for your heating plant.

Loans for Rice Growers Arranged by Government

WASHINGTON. — Because of recent declines in prices, the agriculture department set up a government loan program designed to assure rice growers not less than 90 per cent of the parity price of their 1947 crop.

The department's Commodity Credit corporation will offer growers loans on rice at rates averaging $1.69 a bushel for rough rice at the farm or at approved country warehouses.

Officials said this average is equivalent to 90 per cent of the July 15 parity price of $1.88. Under farm laws, the government is required to support grower prices at not less than 90 per cent of parity for a period ending December 31, 1948.

Take Fire to Firehouse; It Works Okay With Trolley

PHILADELPHIA. — A fire came to the firehouse here.

When flames broke out on a rear seat of a trolley car, James Brown, a passenger, directed the motorman to the nearest engine company headquarters, three blocks away.

Brown dashed into the firehouse, grabbed a hand extinguisher and put out the blaze.

Prayers for College Loan Halted by Call About Ghost

OKLAHOMA CITY, OKLA. — A slip-up in the date of a benefit collection left the Southwest Pentecostal Holiness college facing a $10,000 loan payment with only $7,000 on hand.

The Rev. R. O. Corvin went calling and came back with $1,000. Then he talked it over with the students, and they contributed $138, all they had.

That left a deficit of still nearly $3,000, and Mr. Corvin called for prayers. They were interrupted by a long-distance telephone call. A friend of the church, who withheld his name, said a check for $6,000 was in the mail.

The prayers were resumed on a note of thanksgiving.

DECEMBER 7 IS LEGION GOOD NEIGHBOR DAY

The American Legion has announced that Sunday, December 7, has been proclaimed as "Good Neighbor Day," by national commander James F. O'Neil, of the Legion. Legionnaires will lead in the observance of the occasion.

Farmer Elections

Every farmer in Appomattox County who is eligible to vote in the farm program elections to be held in the next few weeks should vote, advises W. T. Nash, chairman of the county agricultural conservation committee. Farmers will elect three community committeemen from each magisterial district to administer the 1948 agricultural conservation program.

Elections will be held in each community on December 9, and polls will be open from 8:00 A. M. to 5:00 P. M.

The chairman advises that all persons participating in the 1947 Agricultural Conservation Program are eligible to vote whether owners, operators, tenant or sharecropper.

"These annual elections give farmers an opportunity to make their voice heard in the development and administration of farm programs," Mr. Nash said. "And since every farmer has an interest in seeing that the national programs fit local needs, he should use this opportunity to select the men to administer the program who will best carry out this responsibility."

With continued demand for food, and corresponding heavy drain on the soil, farmer committeemen will be confronted with many decisions affecting current and future production, the state chairman said.

LEGION AUXILIARY SQUARE DANCE DEC. 4

An old-time square dance, to which both young and old are invited, will be held on Thursday night, December 4, at the high school cafeteria, from 8 to 11 o'clock. The trio headed by O.R. Rutledge will furnish music and George Wooldridge and others to call figures. The dance is sponsored by the American Legion Auxiliary.

VETERANS' INSURANCE

R. G. Janatka, adjutant of the Appomattox Post 104, the American Legion, has announced that veterans have until an extended deadline of December 31, 1947, to reinstate valuable veterans' term insurance policies. He offers his services to aid any Appomatox vetern in this important matter.
